Axel,
While you were not able to attend the SETAC Pellston Conference,
It is my understanding that you contributed to the proceedings in your exchanges with
Frazier, Pflugfelder and others.

Because we would like to retain your name as a co-author, to Chapter 8, Lab Effects, SETAC and Wiley will need your copyright transfer.

Please forward this to Mimi, so that publication can continue.

Please do not hesitate to contact me or Dave Fischer if you have any questions.
